<b>17:30</b>	Prize Giving (approximately)
<b>18:30</b>	Site closes

## Site Specific Briefing

We are blessed with a lovely venue to be running Short Course Nationals within for a second year in a row. ***Please ensure it is treated with respect.***

If you are wishing to watch the racing from the cafe outside tables, you must be consuming cafe food and not your own picnic.

When not using your boat for racing, please store it either within the **boat storage** compound by race control OR your **own car roof rack**. Do not leave around the site elsewhere as they will be moved.

**Do not attempt to access any out of bounds areas** including roped off pontoons. Only Team Leaders, Officials and first aid incidents are allowed access to race control. You must go through the marshal in the portage lunge to gain access.

All clubs must have a Team Leader to collect number boards from check in, ensure their contact details at race control are correct and be contactable throughout the day for penalties and protest committee liaison. **Number boards cannot be collected by anyone else.**

Heat draws can be found [here](#).

Live results will be published [here](#) throughout the day, including final draws.

## Race Specific Briefing

**You must go through boat control** before getting on the water. It is the responsibility of the paddler to ensure they have time to do this. All boats must present **suitable buoyancy** to keep it afloat in the case of capsize. Boat control officials have the right to turn boats away if they do not believe the buoyancy is suitable.

Any paddlers ranked within division 7-9 must wear a **buoyancy aid** while on the water. Race organisers reserve the right to make buoyancy aids compulsory to all so please ensure you have one with you.

Starts within race blocks will be separated by 2 minutes. **You must not go past the pre-starter** on the water until instructed by the pre-starter to do so. Any infringements will be penalised.

Starts will be **standing and on starters orders**. Any infringements will be penalised.

Paddlers who fail to finish a heat will not qualify for a final. If a paddler believes there are extenuating circumstances, their Team Leader may put in a request to the Chief Umpire via race control.

First five boats in each heat will qualify into final 1, followed by the next best times to make up the rest of the field in final 1. Number of boats within final 1 will depend on the size of the field and can be judged by looking at the number of boats in each heat (this could be from eight boats to twenty-five).

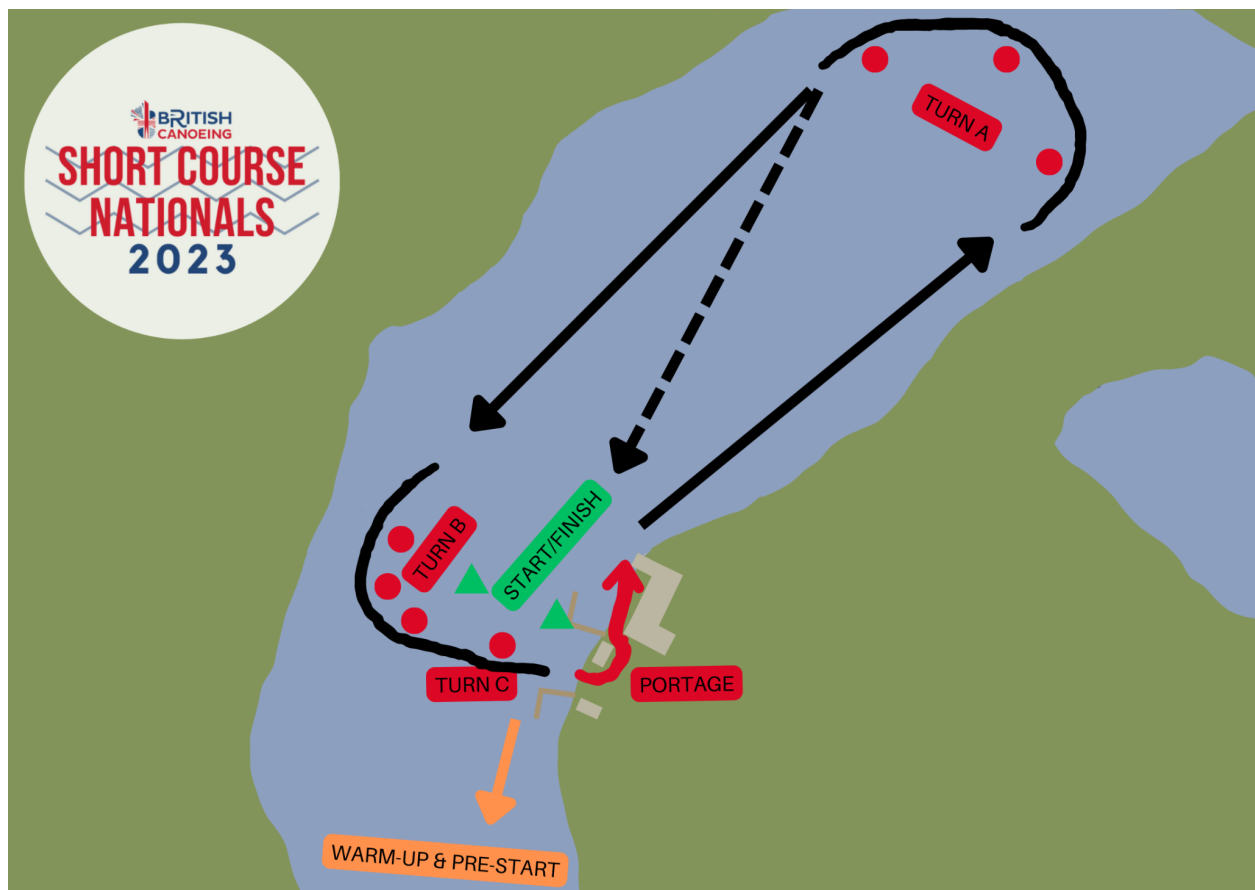

BRITISH  
CANOEING  
**SHORT COURSE  
NATIONALS  
2023**

Marathon racing is a **non-contact sport** and all participants are expected to race respectable and fair. Any incidents viewed as excessive aggression will be penalised as stated within the Marathon Racing Rules.

If you receive a penalty that you would like to protest, please speak to your club team leader in order to submit a protest to the Chief Umpire via race control.

Club Points will be awarded for each paddler with a finish in a Final. A paddler will be awarded points in the sub category they score highest. With 50 points for 1st, 49 for 2nd, and so on. You must wear club vests to score points.
